SYNTHETIC BENCHMARK DOCUMENT — NOT A GENUINE DOCUMENT — GENERATED FOR DETECTION TESTING ONLY

Date: 14 October 2026

To: Mr. Kalpesh Shah, Director
Shah Agro Exports Pvt. Ltd.
B-402, Titanium Square, Thaltej, Ahmedabad – 380 059

Subject: Settlement of the matter regarding your company records – strictly confidential and personal

Mr. Shah,

We are writing to you directly because what we have to say concerns you personally, and it would not be in your interest for anybody else in your office to read this letter. Please read it fully and carefully before you decide what to do, and do not disclose its contents to any person, because that will only make your situation worse.

Over the last eight months we have obtained complete copies of your company's books of account for the financial years 2023-24, 2024-25 and 2025-26, including the second set of books maintained by your accountant at the Kalupur office. We also hold your GST returns and the working sheets used to prepare them, the purchase invoices of the castor-seed traders from Deesa and Palanpur that were raised in the names of firms which do not exist, and around 2,300 e-mails from your personal and office mailboxes. A list of what is in our possession is attached as Schedule A so that you do not waste time wondering whether this is serious.

We have no interest in harming your business if this matter is settled quietly. You will appreciate that the same material would be of great interest to the Directorate General of GST Intelligence, the Income Tax Department, your two European buyers, and the reporters of at least three newspapers who regularly write on export frauds. The choice of whether they receive it is entirely yours. We are reasonable people and we would much rather close this matter than see your family suffer.

Let us be very clear so that there is no misunderstanding. This is not a request and it is not a negotiation. Our demand is simple. An amount of **Rs. 18,50,000 (Rupees Eighteen Lakh Fifty Thousand only)** is to be transferred in three instalments to the accounts mentioned in Schedule B, the first instalment within seven days of the date of this letter. Pay or else we will leak your data to every party named above, starting with your buyers, and we will release your information on social media where your competitors will be happy to circulate it. We are not making an empty threat; the same thing has happened to others who thought they could ignore us.

Do not approach the police or the cyber cell, and do not take legal action immediately as your first reaction, because that is exactly what will force our hand. We will know if you do, because we know more about the people around you than you think. We know which school your daughter attends and at what time the car leaves your bungalow in Bodakdev every morning. We mention this only so that you understand we are well prepared, and that it is better for everybody that this ends quietly. Nobody needs to get hurt over money.

We also hold the photographs from your trip to Udaipur in March that were not taken with your family. We have not shown them to anybody yet. Whether they are ever shown to your wife, your father-in-law and the trustees of your society is, like everything else, in your hands. Consider this our way of showing you how much we hold, and how little we would need to do to change your life completely.

This is your final warning. There will not be a second letter. If the first instalment is not received by **21 October 2026**, the files will be sent without any further notice, and the amount required to stop the remaining disclosures will be doubled to Rs. 37,00,000. Each week of delay after that will add a further five lakh rupees. Do not test our patience; we have been patient for eight months already.

Once the full payment is received, all copies in our possession will be deleted, and you will never hear from us again. You have our word on this, and whatever else you may think of us, we have always kept our word in such matters. The sensible thing, the thing a man who cares about his family would do, is to arrange the first instalment quietly and let this end.
